Introduction

Rye Golf Club is a non-equity membership Club (“the Club”) owned and operated by the City of Rye. The Club offers a challenging 18-hole Devereux Emmet designed golf course overlooking the Long Island Sound, a full-service golf shop and professional staff, teaching and practice areas, multiple swimming pools, and multiple socializing and play areas. Amenities include separate golf and pool locker rooms, a golf course halfway house, Snack Bar, and Whitby Castle. The Castle, built in 1852, and constructed with stones from the original Whiby Abbey in England, overlooks the Club’s finishing 18th green, offers distant water views, and serves as the perfect venue for many events and private celebrations.

In 1965, the City of Rye purchased the 127-acre property, formerly a country club, as a resident recreation facility. The operational model has been changed to a self-supporting Enterprise Fund. Under this model, the Club is responsible for all costs associated with the operation and maintenance of Rye Golf Club: operating expenses, debt service, capital improvements, and contribution to the City’s general fund. It is important to remember that no tax dollars or City subsidies are used to fund the Club. Club revenues, which fund the operating budget, are generated through membership dues and user fees.

Mission statement

Golf etiquette

Golf is a self-policing sport. Each player is expected to hold themselves to the highest standards of care when it comes to the golf course, pace of play, and etiquette. If you witness a violation. You should politely inform the violator of their responsibility to themselves and others. If the matter is egregious, you must report it to the golf operations staff.

Abide by the "spirit of the game". Unlike many sports, golf is played, for the most part, without the supervision of a referee or umpire. The game relies on the integrity of the individual to show consideration for other players and to abide by the rules. All players should conduct themselves in a disciplined manner, always demonstrating courtesy and sportsmanship, irrespective of how competitive they may be.

- USGA rules prevail whenever not posted or covered by local rules.
- All golfers must start at the first tee and always play all holes in numeric order unless directed otherwise by the staff. All holes must be played in succession. Skipping or playing holes out of order is prohibited. Golfers are expected to adhere to the highest levels of golfing etiquette and care for the golf course:
 - Replace or repair divots, repair ball marks, enter and exit traps from the lowest point, and obey all signs and markings.
 - Before leaving a bunker, players should carefully rake over all disturbances and footprints made by them and any nearby made by others.
 - Carry bags are not permitted on tees and greens. Place them in the rough.
 - The flagstick should be properly replaced in the hole before players leave the putting green.
 - Only one ball may be played; please do not use the course as a practice area.
- Delays due to weather or other unforeseen situations are for the safety of the players or to minimize damage to the golf course. Please be patient.

- No more than four (4) players may play together at any one time.
- Players may request permission to play through if a hole is open ahead. Slow players should honor this request.
- Players who have stopped after the 9th or 12th hole must be ready to tee off on the next hole when the preceding group is out of range. If stopped for a prolonged period, other groups may play through, and you will be required to check in with the Starter to be slotted back into play.
- Observe extreme caution when playing shots within range of other golfers and staff. Do not hit your ball until those in front of you are out of range.
- If a player plays a ball in a direction where there is danger of hitting someone, the traditional warning "Fore" should immediately be shouted. If in doubt, always shout "Fore" as loudly as you can.

Pace of play

If players obey the following guidelines, it will make the game more enjoyable for everyone. It is expected that players affirmatively respond to other members if another member suggests that a player abide by customary golf course etiquette and local pace of play expectations. If a player or group consistently disregards these guidelines during a round, disciplinary action against the offending player or group may be taken. Such disciplinary action may include, but is not limited to, adjusting tee times that better suits the player or groups ability to keep up, loss of prime time playing privileges, prohibiting play in certain tournaments or events, or suspension of playing privileges.

"Pace of play" = Always keeping up with the group in front of you.

"Ready golf" = Being ready to hit your shot as soon as the group in front of you is out of range.

- It is a group's responsibility to keep up with the group in front of them. Do not worry about what is going on behind you.
- Play "ready golf".
- Go directly to your ball even if you are further ahead of your playing partners.
- Bring multiple clubs to your ball.
- Have the club you need selected.
- Complete your pre-shot routine while waiting to play.
- When the group ahead is out of your range, play your shot.
- If you are the first person ready to play in your group, regardless of proximity to the hole, play your shot.
- Assist playing partners by bringing clubs, looking for balls (after you play your shot), raking bunkers, and fixing ball marks.

- When playing on or near the putting green, leave your bags or carts in a position that will enable quick movement off the green and towards the next tee.
- If a group is falling behind and therefore slowing down the pace of play, staff may request that the group pick their golf balls up and get back into position on the golf course by not playing the hole out, but rather advancing ahead to catch up with the group in front of them.
- Staff may direct a slower group to let another group play through.
- If a player believes their ball could be in a hazard, lost, or out of bounds, to save time they should play a provisional ball.
- Pace of play rules apply to tournament play.

- Groups with frequent latecomers or no-shows will be subject to loss of tee time reservation privileges or assigned later starting times. Individual offenders may be subject to financial fines after an initial warning.

Appendix B: Rye Golf Club Lightning Policy

1. General

The following excerpts from the National Lightning Safety Institute speaks to the life-threatening level of danger caused by lightening. To read the NLSI's recommendations in full please visit:

http://www.lightningsafety.com/nlsi_pls/multiagency_recommendation.html

- "On average, lightning causes more casualties annually in the US than any other storm related phenomena, except floods. Many people incur injuries or are killed due to misinformation and inappropriate behavior during thunderstorms. A few simple precautions can reduce many of the dangers posed by lightning.
- The seemingly random nature of thunderstorms cannot guarantee the individual or group absolute protection from lightning strikes, however, being aware of, and following proven lightning safety guidelines can greatly reduce the risk of injury or death.
- The individual is ultimately responsible for his/her personal safety and has the right to take appropriate action when threatened by lightning. Adults must take responsibility for the safety of children in their care during thunderstorm activity.
- No place is absolutely safe from the lightning threat, however, some places are safer than others.
- Large enclosed structures (substantially constructed buildings) tend to be much safer than smaller or open structures.
- In general, fully enclosed metal vehicles such as cars, trucks, buses, vans, fully enclosed farm vehicles, etc. with the windows rolled up provide good shelter from lightning. Avoid contact with metal or conducting surfaces outside or inside the vehicle.
- AVOID being in or near:
- High places and open fields, isolated trees, unprotected gazebos, rain or picnic shelters, baseball dugouts, communications towers, flagpoles, light poles, bleachers (metal or wood), metal fences, convertibles, golf carts, water (ocean, lakes, swimming pools, rivers, etc.).
- **Safety Guidelines for Individuals:**
 - Generally speaking, if an individual can see lightning and/or hear thunder he/she is already at risk. Louder or more frequent thunder indicates that lightning activity is approaching, increasing the risk for lightning injury or death. If the time delay between seeing the flash (lightning) and hearing

the bang (thunder) is less than 30 seconds, the individual should be in, or seek a safer. Be aware that this method of ranging has severe limitations in part due to the difficulty of associating the proper thunder to the corresponding flash.

- o When available, pay attention to weather warning devices such as NOAA weather radio and/or credible lightning detection systems, however, do not let this information override good common sense."

2. Pool operations

In accordance with the Westchester County Department of Health, which governs operations of aquatic facilities, the following policy is in place at Rye Golf Club's pool facility:

- a. In the event of thunder or lightning detected within 3.1 miles (5 kilometers), the pool must be cleared for 30 minutes.
- b. In the event of visible lightning or lightning detected within a 1.6 mile (2.5 kilometer) radius, the pool and surrounding facility will close for 45 minutes after each instance of lightning.
- c. The Pool Director will maintain responsibility for ordering closures according to this policy and enacting the Club's aforementioned inclement weather procedures if these weather activities occur.
- d. Members who refuse to comply with this policy and the aforementioned procedures will immediately be suspended pending further review from the Club Manager and must leave the Club's property.

3. Golf operations

- a. Golfers are responsible for their own safety while on the golf course. The Golf Club staff will help golfers maintain their own safety by monitoring the weather within our region. If golfers are concerned about dangerous situations that may arise due to storms, they should monitor the weather on their own and leave the golf course when inclement weather is forecasted.
- b. The Golf Club Superintendent and Starter will monitor weather events in our area. It is the responsibility of the afternoon starter to observe the current weather report before leaving their shift at the end of the evening. In the event that inclement weather is in the area the afternoon starter must notify the Club Manager or Superintendent before leaving so that a responsible manager may continue to monitor the weather until sundown.
- c. If local weather reports indicate that a storm with potential for lightning is imminent, staff will warn golfers via the GPS system on golf carts and by relaying the information through on course rangers. It is strongly encouraged that golfers consider leaving the course when such a warning is issued, as early action may be the only way to be sure of avoiding dangerous situations created by a storm. During this warning process the staff will make every effort to offer a ride to golfers that are walking the course. This will be the last chance that a "walker" will have the opportunity to receive assistance with vacating the golf course from the Club's staff.
- d. If staff feels that a dangerous storm is imminent, play will be suspended until no lightning or thunder has been observed for at least 30 minutes by sounding an air-horn. Golfers must leave the golf course under these situations.
- e. These are the only safe structures that will provide safe shelter from lightning that are always readily available to golfers from March through October:
 - i. The 9th hole bathrooms.
 - ii. The Golf Shop building.
 - iii. The Administration building.
 - iv. The interior of Whitby Castle.
- f. The following structures are not safe and will not provide protection from lightning:
 - i. The 9th hole halfway house.
 - ii. The starter building at the first tee.
 - iii. The rain shelter in between the 13th and 14th holes.
